WHAT WE DO

- Foster better communication among Early Career Researchers and Scientists (ECRs)
- Design activities targeting ECR interests and concerns
- Share ideas on how we can best shape our role for future data sharing
- Connect ECRs with new training and job opportunities.

Exciting Activities

- Bimonthly meetings with presentations highlighting the work of our members & leading data management research.
- Promote participation and nomination of ECRs to the 2019 WDS Data Stewardship Award.
- Starting 2019, will host at least one webinar per year.

COLLABORATIONS

- Jointly contribute to the development of 'next-generation' data practices.
- Expand reach and membership of the network
