

Ms. Lynn LeCount is located at the [University of Kansas Medical Center](#) in Kansas City, USA. She is the Administrative Officer of the [International Union of Basic and Clinical Pharmacology](#) (IUPHAR) as well as the Managing Editor for three [Elsevier](#) pharmacology publications. She holds membership in the [Council of Science Editors](#) and [International Society of Managing & Technical Editors](#). After becoming a [Certified Management Accountant](#), Ms. LeCount completed a Master of Business Administration with an emphasis in Information Systems at the [University of Missouri – Kansas City](#). She specializes in implementing and utilizing online operational systems for geographically diverse organizations. Her experience began with alpha testing the manuscript processing software, [Bench>Press](#), for [HighWire Press](#) then later the testing, customization and migration of a journal to the Elsevier Editorial System, a derivation of the [Aries](#) software, [Editorial Manager](#). Included among the many databases Ms. LeCount has created is a Microsoft Access system for pre- and post-submission tracking of invited manuscripts still in use after a decade. At IUPHAR Ms. LeCount worked with an Oracle SQL developer to deploy a dynamic database for communicating with the ever-changing officers of IUPHAR member societies. In conjunction with the [Executive Committee](#) and organizational stakeholders, Ms. LeCount collaborated with a webdeveloper to design and launch the [IUPHAR.org](#) portal, for which she serves as webmaster.
